Profile

Detail Oriented frontend developer who enjoys turning ideas into clean, responsive websites. I'm comfortable with HTML, CSS, JavaScript, React, and Tailwind, Third-party Libraries and I'm always exploring new ways to improve. I may be a fresher, but I bring strong problem-solving skills, a good eye for design, and the mindset to learn fast and contribute from day one.

Projects

Blog Post App – (blogpostapp-aafaque.netlify.app)

- Built a blog app that lets users write, update, and delete posts with ease Backend Integrated in App-Write.
- Developed using React, styled with Tailwind CSS, and added smooth routing with React Router.
- Hosted on Netlify, the project helped me practice real-world frontend workflows.

Landing Page Folder – (lpfolder.netlify.app)

- Designed multiple landing pages to explore layout ideas and improve my frontend creativity.
- Built using Tailwind CSS for fast styling and responsiveness across all screen sizes.
- Deployed on Netlify, the project serves as a growing portfolio of frontend UI work.

Portfolio Website – (aafaque-portfolio.netlify.app)

- Built a personal portfolio to showcase my projects, skills, and experience as a frontend developer.
- Used React.js, Tailwind CSS, and Framer Motion for a clean design with smooth animations.
- Deployed on Netlify; this project reflects my style, tech stack, and ability to build polished UIs
